

## INTERNSHIP PROGRAM TABLES

Date Program Tables are updated: 09/01 each year

### Internship Program Admissions

Headway Emotional Health's (Headway) Psychology Internship Program is APA accredited on contingency status (Commission on Accreditation: Office of Program Consultation and Accreditation and American Psychology Association 750 1st Street, NE, Washington, DC 20002, Phone: (202) 336-5979, and Email: apaaccred@apa.org). Headway is a not-for-profit community mental health and social services organization, with a rich history of serving children and families in the Minneapolis/St. Paul Metropolitan Area for 50 years. Each academic year, there will be two doctoral psychology internship positions available, which have separate yearlong tracks.

The first track is at the Richfield site and includes involvement in the Adolescent Sexual Behavior and Abuse (ASBA) program, which sees child and adolescent victims of trauma and youth sexual perpetrators. Additionally, psychology interns in this track have an opportunity to co-facilitate a youth sexual offender group with a clinical supervisor.

The other track is at Headway's Brooklyn Center site and includes a focus on community-based mental health outpatient services, including assessment, individual, family and group therapy, and consultations.

Psychology interns in either track are still expected to treat general outpatient cases, which consist of children, adolescents, adults, couples, and families by way of psychological assessment and therapy. Both will also develop in the nine CoA Profession Wide Competencies.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	N	<u>Y</u>	Amount: 250
Total Direct Contact Assessment Hours	N	<u>Y</u>	Amount: 200

Describe any other required minimum criteria used to screen applicants:

Interns are required to have completed all formal coursework and practicum training prior to the beginning of internship. Completion of doctoral dissertation is not required. Preference is given to applicants from APA-approved programs in clinical and counseling psychology. The positions are open to students enrolled in doctoral programs in clinical and counseling psychology. Individually and culturally diverse applicants or members from underrepresented groups are especially encouraged to apply for internship. Several psychology interns who previously completed their internship at Headway indicated that the large surrounding metropolitan area offered them many opportunities to connect with people of similar and different cultural backgrounds in a variety of ways such as attending concerts, plays, sporting events, etc.

#### **Financial and Other Benefit Support for Upcoming Training Year\***
